European Projects Communications Intern

**Reports:** European Projects Coordinator  
**Location:** Barcelona. Home Office  
**Position:** Temporary / Part Time

The Barcelona Mobile World Capital Foundation is currently searching for a European Project Intern focused on Communication.

**What is Horizon 2020 Europe, European Projects?**

The European Union concentrates a large part of its research and innovation activities in the Framework Program, which in this edition will be called Horizon 2020 (H2020). In the 2014-2020 period and through the implementation of three pillars, it contributes to addressing the main social challenges, promoting industrial leadership in Europe and reinforcing the excellence of its scientific base. Horizon 2020 integrates for the first time all the phases from the generation of knowledge to the activities closest to the market: basic research, technology development, demonstration projects, manufacturing pilot lines, social innovation, technology transfer, concept tests, standardization, support for pre-commercial public purchases, venture capital and guarantee system. The European Institute of Innovation and Technology (EIT) becomes part of Horizon 2020 and through its knowledge communities (KIC) integrates research, training and business creation activities.

**Internship Purpose**

We are seeking an ambitious candidate with a journalism, design or audio-visual communication background that are in their master year and have a passion for technology and interest in writing and disseminating scientific content. We are looking for candidates who combine a genuine passion for technology, digital innovation and communication with a keen interest and desire to understand technological trends and entrepreneurship. The Communication intern will be responsible in assisting the development and implementation offline and online communication strategies.

You will learn about:

- Community management: designing social media campaigns and creating social media content about technological trends: 5G, Blockchain, Industry 4.0, Robotics, Manufacturing etc.
- Writing technical content for the company’s blog or documentation
- Design communication and marketing materials (banners, flyers,...)
- Uploading content to project’s website in WordPress platform
- Management and maintenance of databases in Excel
- Other duties and responsibilities that management may deem necessary from time to time.
Minimum requirements

- Be enrolled with a University that can provide an internship agreement for the duration of the internship.
- Be available for 6 months
- Be able to work part time (20 hours per week)
- Be eligible to undertake an internship in Spain.
- English proficiency (B2), native level is an advantage.

Desirable requirements

- English proficiency (B2), native level is an advantage.
- Suite Adobe knowledge is a must (Illustrator, Photoshop, Premiere)
- Wordpress and Mailchimp
- Able to process information in a highly technological environment (Office, internet, email, teleconferences, web meetings...)
- Organisation skills of events and conferences
- Interest in technological trends and start-up environment
- Effective time management and fast resolution of tasks
- Attention to detail, ability to work to deadlines, and organizational skills smart, proactive and with an eye to detail
- Able to process information in a highly technological environment (Office, internet, email, teleconferences, web meetings...)

Evaluation method:

- Interviews with HR Specialist
- Interview with the European Projects Coordinator
