

Eduard Martín is Director of Smart Connectivity in Mobile World Capital Barcelona since January 2019 for heading and coordinating the 5G National Observatory and 5G Barcelona initiative.

Martín is a Computer Engineer and a Technical Engineer in Systems IT from the Open University of Catalonia, and a Graduate in Information Technologies from Cambridge (UCLES). He has a certificate in innovation management from IESE and a track record of over 30 years in the ICT industry, both in the public and private sectors.

In his professional career, he has worked at Barcelona City Hall for over 25 years, specifically at the Municipal Institute of Information Technology. He subsequently joined Sopra Steria, an international consultancy that specialises in digital transformation, where he held the position of Strategic Director for the public sector for over a year. He recently resumed this position as Director of Smart Cities and public sector strategy in Spain. He is also Dean of the Computer Engineering Association of Catalonia and Chairman of the Association of ICT Professionals of Catalonia.
